## About

Experienced Front-End Developer skilled in HTML, CSS, JavaScript, React.js, Next.js. Proficient in responsive design, Git, TypeScript, bug fixing. Demonstrated success in remote and onsite roles.

## Skills

- Front-End Development
- Responsive Web Design
- HTML, CSS, JavaScript
- Figma to Next.js Conversion
- React, TypeScript, Tailwind CSS
- Redux State Management
- API Integration
- TypeScript-based React
- UI/UX Collaboration
- eCommerce Implementation
- English Fluency
- REST API Integration
- Cross-Browser Compatibility
- Performance Optimization
- Debugging & Maintenance
- Problem Solving

# Omar Pervez

## Experience

### FavorSelect

**Front-End Developer (Remote)** | 2025 - 2025

I developed and shipped TypeScript-based React frontends for FavorSelect, worked closely with backend engineers to integrate APIs for product catalog, cart, and checkout. Built reusable UI components, implemented eCommerce pages, and supported admin workflows. Conducted feature handoffs, bug fixes, and code reviews for fast, reliable releases.

### MatchAndFix

**Front-End Developer (Remote)** | 2025 - 2026

Developed the Next.js + TypeScript frontend for MatchAndFix MVP, creating upload + location flow, form validation, and results pages. Collaborated with backend engineers (Node/Express + Supabase) for auth, problem submission, and results APIs integration. Managed client-side state, token verification, UI/UX for paid features (Stripe), and tested end-to-end processes with backend job queues.

### Software Innovations

**Front-End Developer (Onsite)** | 2024 - 2025

I converted Figma designs into a responsive travel platform using Next.js, React, and TypeScript with Tailwind CSS. Developed reusable components and implemented live flight search and booking features. Integrated API endpoints and ensured cross-device accessibility and performance. Also revamped Travel B2B and OTW admin panels with Redux state management, data tables, user management, and client-side features. Collaborated with designers and product managers, lead component reviews, and maintained UI/UX fidelity.

### PeoplePerHour

**Freelance Front-End Developer** | 2021 - Present

I developed and maintained responsive, user-friendly websites using HTML, CSS, and JavaScript. I updated content and structure based on business requirements. I troubleshooted and resolved website issues for smooth performance while coordinating with clients. I tested and debugged regularly for consistent functionality. I earned 31 five-star reviews for my high-quality freelance services.
